PRESIDENT: THROVS

STROKE OF STATESMANSHIP

Next Move Must Be Made By Germany

Prominent Republican Suggests New Zone Should Go As Far As Ireland

THE PRESIDENT HAS THROWN DOWN THE GAUNTLET AND THE NEXT MOVE, PROBABLY AS IMPORTANT AS ANY SINCE SHE ENTERED THE WAR, MUST BE MADE BY GERMANY.

IN THE VIEW OF COMPETENT OBSERVERS IN WASHINGTON, GERMANY HAS BEEN ORDERED OUT OF THE WATERS BETWEEN AMERICA AND ICELAND.

IF SHE OBEYS. THE BATTLE OF THE ATLANTIC IS ALREADY LOST TO THEM, IF SHE STAYS, THE AMERICAN NAVY JOINS THE BRITISH NAVY IN THE WORK OF DESTROYING THE GERMAN NAVY AND AIRCRAFT RAIDING ATLANTIC SEALANES BETWEEN THE UNITED STATES AND ICELAND.

It is believed in Washington that Germany can scarcely obey, wherefore an increasing number of incidents between German and American craft is to be expected. Isolationists will unquestionably howl, but such is the evidence against Germany in the incidents cited by the President that they must take the cue from Berlin if they attack the President, says Reuter.

THE SUPPORT OF ONE OF THE MOST PROMINENT REPUBLICANS FOR MR. ROOSEVELT'S NEW POLICY IS ALREADY ASSURED. IT IS STATED IN A MOST RELIABLE QUARTER THAT HE SAW THE SPEECH BEFORE DELIVERY AND INDICATED THAT HE WOULD SUPPORT THE POLICY, BUT SUGGESTED THE NEW ZONE SHOULD GO AS FAR AS IRELAND RATHER THAN ICELAND.

Big Fires Burning At Rostock

On Thursday night aircraft of Bomber Command attacked ob jectives in Northern Germany including KIEL and the Baltic port of ROSTOCK.

The weather was not good but American armed forces have considerable forces bombed targets at both places and left large fires burning.

The docks at LE HAVRE and BOULOGNE were also bombed.

Aircraft of the Coastal Command on patrol last night bomb ed the docks at HAUGESUND, an aerodrome near STAVANGER and enemy shipping off the Dutch and ing to British Wireless. Norwegian coasts.

It is emphasised, is largely due to all Americans should rally to bit M. A. Barnett as Secretary. a policy of complete silence on support. naval developments so long as they are not liquidated.

Predictions that the speech would be the most important that the President has made since the war began have been borne out. In the view of political quarters here, the initiative is with Mr. Roosevelt. They consider he has put it up to Germany whether America shall engage in a shooting war or not, and as far as can be seen now, Germany has two unpleasant alternatives, firstly to quit the Atlantic and allow the stream of Lend and Lease goods to flow safely across the Atlantic, and secondly to take such naval action as seems bound to bring America into the war against her.

BROADCAST WAS MORE THAN A SPEECH: SHOWS WAY IN ATLANTIC CHARTERWILL BE APPLIED SAYS

"Coming after Mr. Churchill's speech in the House of Commons on Tuesday, President Roosevelt's broadcast opens the window of the future and shows the way in which the principle of the Atlantic Charter will be applied after the destruction of Nazi tyranny," said MR. H. WICKHAM STEED, the well-known commentator on international affairs, when he broadcast from London yesterday and discussed reaction to Mr. Roosevelt's broadcast and looked into the future of Anglo-American relations.

Mr. Steed said that when he listened to President Roosevelt's speech from the White House it brought back several memories to him-President Wilson's declaration of war in April, 1916, and the peace that came after it.

Transportation Firms Paid Considerable Sums On Sub-contracts

That the WAN TUNG TRANSPORTATION COMPANY and the KWONG WING COMPANY, both transportation companies owned by her and with a common capital of \$5,000, were sub-contractors to the KIN LEE firm of building contractors on the tunnelling work in KOWLOON, and that these two companies were paid considerable sums on those sub-contracts, were admitted by TO LAI-CHUNG, wife of MR. A GRAND EXPERIMENT

So Quetz widens his grin and directs it at Tyce, Ann's newlywed husband, played by Melvyn Douglas, and continues to quietly, chuckle while Ann informs Tyce that he is to be a pioneer, in plainer words, a guinea-pig, in a grand experiment.

Ann does not believe in the old custom that a honeymoon follows a wedding, and proceeds to tell Tyce a thing or two about how a wedded couple could live happily apart while learning more about one another.

THE WAR IN THE AIR: BOMBS-THEIR SIZE, SHAPE AND SPEED: SOME RECENT DEVELOPMENTS

How big are the bombs used by the Royal Air Force? How fast do they fall and why do they use different kinds of bombs in their operations? These questions were discussed by MAJOR OLIVER STEWART, M.C., A.F.C., the well-known commentator on aerial warfare, when he broadcast from London yesterday.

WILL ENTER AMERICAN DEFENCE WATERS AT OWN PERIL

WASHINGTON, Sept. 12 (Reuter)-In his eagerly awaited broadcast last night PRESIDENT ROOSEVELT bluntly warned GERMANY and ITALY that their warships will henceforth enter American defensive waters "at their own peril."

"Orders which I have given as Commander-in-Chief of the United States Army and Navy are to carry out that policy-at once. The sole responsibility rests on Germany. There will be no shooting unless Germany continues to seek it.

"I have no illusions about the gravity of this step. In the protection of your nation and mine it cannot be avoided. I have not taken it hurriedly. It is the result of months and months of constant thought, anxiety and prayer.

AND COLOURED CEMENT MIXTURES.

FOR EXTERNAL AND INTERNAL DECORATIVE WORK.

We are now in a position to offer these well-known Associated Portland Cement Manufacturers products ready mixed with the proper proportion of specially prepared sand. This sand is uniform in colour and has been washed and suved to the correct degree of fineness.

The extra cost of these mixtures is very small compared with the advantages of being able to obtain a material that is ready for use.

DUTCH SHIP SUNK IN PACIFIC

NEW YORK, Sept. 12 (Reuter) -A German raider operating in the Pacific about 1,000 miles west of Panama has sunk the Dutch motorship Kotanopan and has threatened other vessels, according to New York shipping sources,

The Kotanopan is reported to be carrying rubber, tin and palm oil for the United States. The fate of the crew and pas-

sengers, if any, is unknown.

COMMERCIAL GOODS

In regard to the transportation of commercial goods, Mr. Huang further said that considerations will be made on the basis of information on market conditions in the interior as supplied by the of Communication, Ministrles Finance and Economic Affairs.

Aside from regulating air freight transport Mr. Huang said the In spectorate will therefore also be instrumental in regulating the supply of commodities in the interior, thus stabilising the general price level.

Mr. Huang sald that there will be rigorous restrictions hencetorth on chartering planes. Merchants who desire to charter planes will have to submit papers certifying the kind and value of their goods to be transported. This, he believed, will eliminate the "black market" air freight rates .--(Central News)

CHINA'S SILK INDUSTRY TO BE DEVELOPED

With the object of further developing China's slik industry, the Ministry of Agriculture and Forestry has drafted a comprehensive plan for the increase of silk pre-

duction. According to the plan, some 3,000 mow of land be marked out in different districts for the cultivation of 65,000,000 mulberry trees in the current year. These districts include Lashan, Mantai, Langehung, Hochwan and Nanchung in Szechwan.

It is expected that the increased output of silk will reach 20,000

Meanwhile, it is learned that to increase tung oil production for export purpose, the Foreign Trade Commission has mapped out a plan whereby the existing 290,000 mow of tung plantations will be improved and 680,000 mow of new plantations will be established. It is estimated that the resultant tung oil output will be increased by 1,100,000 piculs annually.

Five provinces in the Southwest have been designated as experimental centres for production increases wherein 146 offices for giving technical guidance will be established.—(Central News).
